

GALVIN LA CHAPELLE
BACK TERRACE RESTAURANT SAIL SHADE

Client: Galvin Restaurants

GALVIN LA CHAPELLE RESTAURANT, SPITALFIELDS, LONDON.

Clients: Galvin

Galvins St. Botolph presented a different challenge. A semi permanent awning to cover the immediate outside area which can be enclosed with detachable side curtains and a near triangular extension which is easy to remove if the summer is particularly warm.

It is possible to use the main structure as the support for the second sail and incorporate the '3rd Dimension' to give stability and drainage. Subsequently detachable side curtains were added to this part as well.
